

**Temperature Monitoring Products and solutions for Food, Pharma & Shipping Industry**

<p><b>1 Real Time Monitoring &amp; Recording with Alert</b>        This is for warehouses, cold rooms, chiller rooms etc.        Features:</p> <ul style="list-style-type: none"> <li>• Computer connectivity is not essential</li> <li>• 8000 recordings on the device</li> <li>• Web based free software. Any number of devices across different locations can be connected</li> <li>• Full battery back up</li> <li>• Phone call/SMS/Email alert to 8 operators if temperature exceeds limits</li> <li>• Power failure, Water leakage, Compressor failure etc. can be connected to Phone call alert</li> <li>• Operated with SIM card</li> </ul>	 <p>Video: <a href="http://bit.ly/1jGhnj9">http://bit.ly/1jGhnj9</a></p>
<p><b>2 USB type Data Logger (disposable/reusable)</b>        These are for transportation of food, medicines etc.        Features:</p> <ul style="list-style-type: none"> <li>• 4 temperature alarm limits can be programmed</li> <li>• 4 LEDs will indicate whether the temperature has crossed the limits</li> <li>• 8000 readings</li> <li>• 'Start' and 'Stop' buttons for recording</li> <li>• pdf report generated upon inserting into a computer. No software required.</li> <li>• Reports available in pdf, Excel &amp; text formats</li> </ul>	 <p>Video : <a href="http://bit.ly/JazdNh">http://bit.ly/JazdNh</a></p>
<p><b>3 Temperature recorder with printer for vehicles</b>        These are for printing reports from the vehicle itself        Features:</p> <ul style="list-style-type: none"> <li>• 30,000 readings can be stored</li> <li>• Computer connection not required except for data download.</li> <li>• Can be mounted in the cabin and sensors drawn to the freezer compartment</li> <li>• Alert levels can be programmed</li> <li>• Powered by 12 V Battery of the vehicle</li> <li>• Oldest data will be automatically erased when memory full</li> </ul>	 <p>Details: <a href="http://bit.ly/1ezh4XJ">http://bit.ly/1ezh4XJ</a></p>
<p><b>4 Temperature &amp; Humidity recorder with display</b>        These are for warehouses, cold rooms as well as for transportation.        Features:</p> <ul style="list-style-type: none"> <li>• 4 Programmable threshold limits</li> <li>• 4 LEDs will indicate whether the temperature/humidity crossed the limits</li> <li>• High, Low and average readings will be shown on screen</li> <li>• IP Rating : IP65</li> <li>• Single use and Multiuse models are available</li> </ul>	 <p>Details : <a href="http://bit.ly/1lcBaol">http://bit.ly/1lcBaol</a></p>
<p><b>5 Egg Shaped Data Logger</b>        This data logger is for monitoring during storage, transportation and incubation of Eggs. Features:</p> <ul style="list-style-type: none"> <li>• Memory : 16,000 readings</li> <li>• Range : -20° C to +60° C</li> <li>• Interval: 5 seconds to 255 minutes</li> </ul>	 <p>Details: <a href="http://bit.ly/1cAWcOA">http://bit.ly/1cAWcOA</a></p>
